

S/N: EEI 1079

Date: 6/24/2008

Status: In Stock

Description: Soil Vapor Extraction system with 3PH motor, Regen motor, inlet filter, vacuum relief valve, knockout tank, magnehelic gauge, start/stop switch; all tank mounted

Fuji motor on Regen blower

Model- VFC704A-7W

Phase- 3

Volts- 200-230/460

Amps- 15.6-16/8

Max CFM- 267

Max H<sub>2</sub>O- 114 inches

Inlet filter

Fisher Controls vacuum relief valve

Type- 289H-42 02-00

Output silencer

Knockout tank with one float switch

Magnehelic gauge (measures 0-100" of water)

Cutler-Hammer Start/Stop switch

All tank mounted
