

S/N: EEI 1141

Date: 8/8/2008

Status: In Stock

Description: Dual Phase Extraction system with A75 water seal liquid ring vacuum pump, tank, control panel, temp rise, 2 zone manifold; all skid mounted

Atlantic Fluidics A75 water seal liquid ring vacuum pump

Model- A75

Serial- 21265

Transfer pump

HP- $\frac{3}{4}$

Phase- 1

Volts- 115/230

Amps- 9.4/4.7

RPM- 3,450

Tank

Atlantic Fluidics control panel with start/stop buttons, reset button

CAT No.- SPM 25035

Serial- 2652

Enclosure type- 3-4

Dry type transformers single phase temp rise

2 zone manifold each with 0-30" Hg gauge

Skid mounted
